

Screening Report — SDET — 29 Aug 2026

Screened Files: GirishJoshi_Senior_QA_Engineer_10+Yrs.docx, Naukri_Tarunkumarkillamsetty[9y_6m].pdf, Naukri_SHUSHILKOPPU[5y_2m].pdf | **Active JD:** references/job-description.md (SDET 6–10 Yrs) | **Candidates Ranked:** 3

1) Ranking

#	Candidate	Score	Verdict	Total Exp	Missing (Mandatory)	Partial	Claimed
1	Girish Joshi	64.5 / 100	Screening Passed Potential fit ⚠️	10+ yrs (15.5 yrs)	Python, Cypress, Pytest	UI/Web+BDD, AI Test, CI/CD	API Test, Agentic AI
2	Tarun Killamsetty	59.0 / 100 <i>(Capped from 67)</i>	Screening Failed Weak fit (AI Hard Gap) ❌	9.5 yrs	Python, Cypress, Pytest, AI Test, Agentic AI	—	—
3	Shushil Kumar Koppu	0.0 / 100 <i>(Disqualified)</i>	Screening Failed Reject (Exp Gate < 6y) ❌	5.3 yrs	Python, Cypress, Pytest, Agentic AI	AI Test	—

Key Takeaway & Override Decisions:

- **Girish Joshi:** Highest-ranked candidate. Meets experience gate (10+ yrs), proves Playwright + JS/TS automation, 8+ yrs Life Sciences/Pharma domain (Philips, Quintiles/IQVIA), and AI Model Validation experience.
- **Tarun Killamsetty:** Strong traditional SDET with 9.5 yrs Playwright & Oracle CTMS experience, but triggered **Rubric Rule #3 (AI-driven testing completely missing)**, capping score < 60 and downgrading to Weak fit / Screening Failed.
- **Shushil Kumar Koppu:** Excellent Playwright JS skills but disqualified out-of-the-gate due to **Experience Gate violation (5.3 yrs vs 6.0 yrs required)**.

2) Gap Matrix

Candidate: Girish Joshi

Skill / Area	JD Expectation	Requirement	Status	Evidence (Key Line / Deliverable)
JavaScript / TypeScript	Proficient in JS/TS for building automation	Mandatory	Matched	Playwright automation using JavaScript/TypeScript for Regression/E2E (Luxoft)
Python	Proficient in Python for building automation	Mandatory	Missing	no evidence found
Cypress	Hands-on modern E2E automation tool	Mandatory	Missing	no evidence found
Playwright	Hands-on Playwright modern framework experience	Mandatory	Matched	Playwright with JS/TS (Luxoft); Playwright with Dot Net C# POM (SLK)
Pytest	Hands-on Pytest test runner & fixtures	Mandatory	Missing	no evidence found
Framework Design (E2E)	Build, scale, and maintain POM frameworks end-to-end	Mandatory	Matched	Written POM framework; Building POM Framework from scratch (SLK/MFX/Quintiles)
UI / Web Testing + BDD	UI/Web testing with BDD (Cucumber / SpecFlow / MABL)	Mandatory	Partial match	Extensive UI/Web testing & POM across multiple roles; no BDD/Cucumber evidenced
API Testing (REST / Postman)	REST APIs with Postman / Insomnia / Mocha	Mandatory	Claimed (unevidenced)	Listed Postman & Swagger in skills; no REST scripts in project history

Skill / Area	JD Expectation	Requirement	Status	Evidence (Key Line / Deliverable)
STLC & Test Strategy	Functional & non-functional testing strategy, RTM, metrics	Mandatory	Matched	Designed Test Plans, Test Scripts, RTM, defect metrics, risk-based QA
Test Management (Jira/ALM)	Hands-on Jira, HP ALM / QC, TestRail	Mandatory	Matched	Azure DevOps at Luxoft; JIRA, HP ALM / QC listed and used across projects
Agile / Kanban	Agile Scrum ceremonies, sprint planning, defect triage	Mandatory	Matched	Agile Scrum ceremonies, sprint planning, defect triage calls across client projects
AI Solution Testing	Experience testing AI-powered solutions / ML models	Mandatory	Partial match	Performed AI Model Validation testing across physical and cloud machines (Luxoft)
Agentic AI (MCP/RAG/Prompting)	Agentic AI (MCP, RAG, Prompting; test/dev solutions)	Mandatory	Claimed (unevidenced)	Lists AI tools (Copilot, Claude, ChatGPT); no MCP/RAG/Agentic architecture
AWS / Azure Cloud Exposure	Cloud services relevant to test environments	Good-to-have	Matched	Cloud environments testing (Azure, AWS) and Azure DevOps (Luxoft)
CI/CD Integration	Integrates test suites into CI/CD pipelines	Good-to-have	Partial match	Listed Azure DevOps / Jenkin's & CI-CD Pipelines in skills table
Pharma / Life Sciences Domain	Pharma, healthcare, or clinical trial background	Good-to-have	Matched	8+ yrs: Philips AMD, Quintiles/IQVIA CTMS & Argus Safety, GE Healthcare

Candidate: Tarun Killamsetty

Skill / Area	JD Expectation	Requirement	Status	Evidence (Key Line / Deliverable)
JavaScript / TypeScript	Proficient in JS/TS for building automation	Mandatory	Matched	Built UI automation using Playwright; JavaScript in core skills (Oracle)
Python	Proficient in Python for building automation	Mandatory	Missing	no evidence found
Cypress	Hands-on modern E2E automation tool	Mandatory	Missing	no evidence found
Playwright	Hands-on Playwright modern framework experience	Mandatory	Matched	Worked with Playwright locators, assertions, reusable page objects, CI execution (Oracle)
Pytest	Hands-on Pytest test runner & fixtures	Mandatory	Missing	no evidence found
Framework Design (E2E)	Build, scale, and maintain POM frameworks end-to-end	Mandatory	Matched	Designed and maintained reusable Page Object Model (POM) components (Oracle)
UI / Web Testing + BDD	UI/Web testing with BDD (Cucumber / SpecFlow / MABL)	Mandatory	Matched	Automated end-to-end payroll workflows using Selenium with Cucumber (Paychex)
API Testing (REST / Postman)	REST APIs with Postman / Insomnia / Mocha	Mandatory	Matched	Performed API Automation and validation using Rest Assured Postman & SOAP UI (Oracle)
STLC & Test Strategy	Functional & non-functional testing strategy, RTM, metrics	Mandatory	Matched	Review requirements, finalize test strategies, build regression suites, Jira logging
Test Management (Jira/ALM)	Hands-on Jira, HP ALM / QC, TestRail	Mandatory	Matched	Reported defects with detailed logs in Jira; HP ALM, TFS listed in skills

Skill / Area	JD Expectation	Requirement	Status	Evidence (Key Line / Deliverable)
Agile / Kanban	Agile Scrum ceremonies, sprint planning, defect triage	Mandatory	Matched	Participated in sprint planning, Agile ceremonies, and QA mentoring (Oracle)
AI Solution Testing	Experience testing AI-powered solutions / ML models	Mandatory	Missing	no evidence found
Agentic AI (MCP/RAG/Prompting)	Agentic AI (MCP, RAG, Prompting; test/dev solutions)	Mandatory	Missing	no evidence found
CI/CD Integration	Integrates test suites into CI/CD pipelines	Good-to-have	Matched	Integrated automated test suites into CI pipelines; Jenkins integration (Paychex)
Pharma / Life Sciences Domain	Pharma, healthcare, or clinical trial background	Good-to-have	Matched	5+ yrs on Oracle Clinical Trial Management Systems (CTMS) for pharma & biotech

Candidate: Shushil Kumar Koppu

Skill / Area	JD Expectation	Requirement	Status	Evidence (Key Line / Deliverable)
JavaScript / TypeScript	Proficient in JS/TS for building automation	Mandatory	Matched	Playwright with JavaScript (Node.js, NPM, Custom Fixtures, Async/Await) at Primus
Python / Cypress / Pytest	Proficient in Python, Cypress, or Pytest	Mandatory	Missing	no evidence found
Playwright	Hands-on Playwright modern framework experience	Mandatory	Matched	Framework migration from Selenium Java to Playwright JavaScript; custom fixtures (Primus)
Framework Design (E2E)	Build, scale, and maintain POM frameworks end-to-end	Mandatory	Matched	Architected modular POM Playwright framework + Selenium Java hybrid framework
UI / Web Testing + BDD	UI/Web testing with BDD (Cucumber / SpecFlow / MABL)	Mandatory	Matched	Cucumber BDD, POM, cross-browser execution across Chromium, Firefox, and WebKit
API Testing (REST / Postman)	REST APIs with Postman / Insomnia / Mocha	Mandatory	Matched	Automated API microservices testing using Rest Assured and Postman, OAuth/JWT
STLC & Test Strategy	Functional & non-functional testing strategy, RTM, metrics	Mandatory	Matched	Governed full STLC/SDLC, RTM, defect lifecycle, RCA, L3 production support
Test Management (Jira/ALM)	Hands-on Jira, HP ALM / QC, TestRail	Mandatory	Matched	End-to-end defect lifecycle in JIRA, HP ALM, and qTest
Agile / Kanban	Agile Scrum ceremonies, sprint planning, defect triage	Mandatory	Matched	Agile Scrum (2-week sprint cycles, 3-month release cadence), sprint ceremonies
AI Solution Testing	Experience testing AI-powered solutions / ML models	Mandatory	Partial match	Leveraged AI tools (GitHub Copilot, Cursor AI) for script authoring & locators
Agentic AI (MCP/RAG/Prompting)	Agentic AI (MCP, RAG, Prompting; test/dev solutions)	Mandatory	Missing	no evidence found
CI/CD Integration	Integrates test suites into CI/CD pipelines	Good-to-have	Matched	Wired Playwright and API regression suites into Jenkins CI/CD pipelines
Pharma / Life Sciences Domain	Pharma, healthcare, or clinical trial background	Good-to-have	Matched	Healthcare Management Systems, Clinical Trial Research & Randomization Platform

3) Candidate Details

1. Girish Joshi

Tag Line: Screening Passed Potential fit ⚠️

Veteran QA Lead / SDET with 10+ years (15.5 active years) of extensive test engineering, Playwright + JS/TS automation, and deep Pharma/Life Sciences domain expertise, with baseline exposure to AI Model Validation.

- **Score Breakdown:** Mandatory **56.7 / 85**, Bonus **5.8 / 10**, Experience **2.0 / 5** → **Total: 64.5 / 100**
 - **Mandatory Skills Breakdown:**
 - **Matched:** JS/TS (6.0), Playwright (6.0), Framework Design (8.0), STLC & Strategy (7.0), Test Management (6.0), Agile/Kanban (6.0).
 - **Partial Match:** UI/Web Testing + BDD (5.4) (Strong Web UI & POM; lacks Cucumber/SpecFlow BDD); AI Solution Testing (3.6) (AI Model Validation at Luxoft).
 - **Claimed but Unevidenced** ⚠️ : API Testing (2.7) (Postman/Swagger listed in skills table; lacks concrete automated project deliverables); Agentic AI (1.2) (Copilot/Claude listed; no MCP/RAG architectures).
 - **Missing:** Python (0.0), Cypress (0.0), Pytest (0.0).
 - **Good-to-Have Bonus (5.8 / 10):** Cloud Azure/AWS (2.0), CI/CD Integration (1.8), Pharma Domain (2.0) (Philips AMD, Quintiles CTMS & Argus Safety).
 - **Override Rules & Red Flags:** All hard gates passed. Interview probes needed on API test automation and Agentic AI depth.
 - **Final Call: Screening Passed · Potential fit** ⚠️
-

2. Tarun Killamsetty

Tag Line: Screening Failed Weak fit (AI Hard Gap) ❌

Solid Senior Automation Engineer with 9.5 years in Playwright UI & REST API automation within Oracle CTMS Life Sciences, but lacks any AI testing or Agentic AI experience.

- **Score Breakdown:** Mandatory **57.0 / 85**, Bonus **5.0 / 10**, Experience **5.0 / 5** → Raw: 67.0 / 100 → **Capped Score (Rule #3): 59.0 / 100**
 - **Mandatory Skills Breakdown:**
 - **Matched:** JS/TS (6.0), Playwright (6.0), Framework Design (8.0), UI/Web + BDD (9.0), API Testing (9.0), STLC (7.0), Test Management (6.0), Agile (6.0).
 - **Missing:** AI Solution Testing (0.0), Agentic AI (0.0), Python (0.0), Cypress (0.0), Pytest (0.0).
 - **Override Rules & Red Flags: Triggered Rubric Rule #3** (AI-driven testing completely missing) → score capped < 60 and downgraded to Weak fit.
 - **Final Call: Screening Failed · Weak fit** ❌
-

3. Shushil Kumar Koppu

Tag Line: Screening Failed Reject (Experience Gate < 6y) ❌

Skilled QA Automation Lead with 5.3 years experience and strong Playwright JS framework migration credentials, but strictly disqualified by the mandatory 6–10 years experience gate.

- **Experience Gate: HARD FAIL — Automatic Disqualification** (5.3 yrs vs 6.0 yrs mandatory minimum).
 - **Score: 0.0 / 100 (Disqualified)**
 - **Skills Audit:** Strong Playwright JS, POM, Cucumber BDD, Rest Assured API microservices, Jenkins CI/CD, and Healthcare domain experience.
 - **Final Call: Screening Failed · Reject** ❌
-

4) Recommendation & Next Steps

1. **Advance Girish Joshi to Technical Round 1:** Probe live Playwright + TypeScript coding, Postman/Newman API automation depth, and Agentic AI / MCP fundamentals.

2. **Keep Tarun Killamsetty as Backup for Classical SDET Roles:** Strong traditional Playwright + Rest Assured skillset in Oracle CTMS.
3. **Archive Shushil Kumar Koppu for Mid-Level SDET Openings:** Recommended for roles requiring 3–5 years experience.
