

Screening Report — SDET — 05 Sep 2026

Screened Files: Naukri_Tarunkumarkillamsetty[9y_6m].pdf | Active JD: references/job-description.md (SDET 6–10 Yrs) | Candidates Ranked: 1

1) Ranking

#	Candidate	Score	Verdict	Total Exp	Missing (Mandatory)	Partial	Claimed
1	Tarun Killamsetty	59.0 / 100 (Capped from 67)	Screening Failed Weak fit (AI Hard Gap) ❌	9.5+ yrs	Python, Cypress, Pytest, AI Test, Agentic AI	—	—

Key Takeaway & Override Decisions:

- **Tarun Killamsetty:** Strong traditional Senior QA Automation Engineer with 9.5+ yrs experience, robust Playwright UI automation, Page Object Model design, and Rest Assured API testing across Oracle CTMS Life Sciences.
- However, triggered **Rubric Rule #3 (AI-driven testing completely missing)** due to zero exposure in AI solution testing (#12) and Agentic AI (#13), capping the score at < 60 (59.0) and downgrading the verdict to Weak fit / Screening Failed.

2) Gap Matrix

Candidate: Tarun Killamsetty

Skill / Area	JD Expectation	Requirement	Status	Evidence (Key Line / Deliverable)
JavaScript / TypeScript	Proficient in JS/TS for building automation	Mandatory	Matched	Built UI automation using Playwright; JavaScript listed in core skills (Oracle)
Python	Proficient in Python for building automation	Mandatory	Missing	no evidence found
Cypress	Hands-on modern E2E automation tool	Mandatory	Missing	no evidence found
Playwright	Hands-on Playwright modern framework experience	Mandatory	Matched	Worked with Playwright locators, assertions, reusable page objects, CI execution (Oracle)
Pytest	Hands-on Pytest test runner & fixtures	Mandatory	Missing	no evidence found
Framework Design (E2E)	Build, scale, and maintain POM frameworks end-to-end	Mandatory	Matched	Designed and maintained reusable Page Object Model (POM) components (Oracle)
UI / Web Testing + BDD	UI/Web testing with BDD (Cucumber / SpecFlow / MABL)	Mandatory	Matched	Automated end-to-end payroll workflows using Selenium with Cucumber (Paychex)
API Testing (REST / Postman)	REST APIs with Postman / Insomnia / Mocha	Mandatory	Matched	Performed API Automation and validation using Rest Assured, Postman & SOAP UI (Oracle)
STLC & Test Strategy	Functional & non-functional testing strategy, RTM, metrics	Mandatory	Matched	Review requirements, finalize test strategies, build regression suites, Jira logging
Test Management (Jira/ALM)	Hands-on Jira, HP ALM / QC, TestRail	Mandatory	Matched	Reported defects with detailed logs in Jira; HP ALM, TFS listed in skills
Agile / Kanban	Agile Scrum ceremonies, sprint planning, defect triage	Mandatory	Matched	Participated in sprint planning, Agile ceremonies, and QA mentoring (Oracle)

Skill / Area	JD Expectation	Requirement	Status	Evidence (Key Line / Deliverable)
AI Solution Testing	Experience testing AI-powered solutions / ML models	Mandatory	Missing	no evidence found
Agentic AI (MCP/RAG/Prompting)	Agentic AI (MCP, RAG, Prompting; test/dev solutions)	Mandatory	Missing	no evidence found
AWS / Azure Cloud Exposure	Cloud services relevant to test environments	Good-to-have	Missing	no evidence found
CI/CD Integration	Integrates test suites into CI/CD pipelines	Good-to-have	Matched	Integrated automated test suites into CI pipelines; Jenkins integration (Paychex)
Monitoring / Distributed Debugging	Splunk, Grafana, Power BI monitoring	Good-to-have	Missing	no evidence found
No-Code / Low-Code Tools	MABL, Test Complete	Good-to-have	Missing	no evidence found
Pharma / Life Sciences Domain	Pharma, healthcare, or clinical trial background	Good-to-have	Matched	5+ yrs on Oracle Clinical Trial Management Systems (CTMS) for pharma & biotech

3) Candidate Details

1. Tarun Killamsetty

Tag Line: **Screening Failed** **Weak fit (AI Hard Gap)** ❌

Solid Senior Automation Engineer with 9.5+ years in Playwright UI & REST API automation within Oracle CTMS Life Sciences, but lacks any AI testing or Agentic AI experience.

- **Score Breakdown:** Mandatory **57.0 / 85**, Bonus **5.0 / 10**, Experience **5.0 / 5** → Raw: 67.0 / 100 → **Capped Score (Rule #3): 59.0 / 100**
- **Mandatory Skills Breakdown:**
 - **Matched:** JS/TS (6.0), Playwright (6.0), Framework Design (8.0), UI/Web + BDD (9.0), API Testing (9.0), STLC (7.0), Test Management (6.0), Agile (6.0).
 - **Missing:** AI Solution Testing (0.0), Agentic AI (0.0), Python (0.0), Cypress (0.0), Pytest (0.0).
- **Good-to-Have Bonus (5.0 / 10):** CI/CD Integration (3.0), Pharma Domain (2.0) (*Oracle CTMS Clinical Trials*).
- **Override Rules & Red Flags: Triggered Rubric Rule #3** (AI-driven testing completely missing) → score capped < 60 and downgraded to Weak fit.
- **Final Call: Screening Failed · Weak fit** ❌

4) Recommendation & Next Steps

1. **Classical SDET Consideration:** Strong candidate for standard Web UI + API Automation roles (Playwright, Rest Assured, Oracle CTMS).
2. **AI-SDET Position:** Unqualified for AI-focused opening unless provided comprehensive onboarding on LLM evaluation, RAG architecture, and MCP protocols.
